

Rocky Hill coal mine - coming to your backyard

It's Back!

In 2013 GRL had an Environmental Impact Statement (EIS) on exhibition for its Rocky Hill coal mine. Things then went quiet and you could be forgiven for thinking that the mine proposal had "gone away".

But no—GRL has made some changes to its plans and is about to have another go at gaining NSW Government approval.

Stage 1 is planned to run for 21 years and Stage 2 will be even closer to town. Is that what you want?
